Modules: English, Mathematics, Biology, Chemistry, Physics, Social Studies.

SKILLS

- React & Redux
- Firebase
- Vanilla JavaScript/ jQuery
- Gimp
- WordPress
- Bootstrap
- HTML/ CSS
- Responsive design & development
- Figma

FEATURED PROJECTS

PORTFOLIO WEBSITE

A website developed with HTML, CSS, JavaScript and jQuery. Contains a demo of all built projects and a GitHub link as well. Kindly find the link in the header above.

COLDSiS WEBSITE
Redeveloped COLDSiS' website with HTML, CSS, vanilla JavaScript and jQuery. Used this stack because it gives me flexibility with customization of various components.

DERSBY MEDICAL CARE
A home care website built with HTML, CSS and vanilla JavaScript. It's incorporated with Calendly to allow users to book appointments with a doctor.

INCOME & EXPENSE TRACKER
A web app developed with React and Redux, that tracks your income and expenses. I used redux persist to get the transaction history data to be persistent.

TIMERROLL
An interesting dice game built with HTML, CSS and vanilla JavaScript.

ONLINE SHOPPING SITE
A static website developed with Bootstrap.

CALENDLY
Calendly's website reproduced with React and CSS. Goal of this exercise was to get to grips with building UIs.

POST APP
A react app fashioned loosely after twitter with routing and CRUD operations as the main focus. It was built with react, redux and firebase(backend).

All links to the demo of my featured projects can be found in my portfolio website
